

## Show My Homework

### Guide for Parents

#### Checking students homework

Show My Homework makes it easy for you to track and monitor your children's homework. [Login](#) to your account to get started!

The screenshot shows the 'Select student' page in the Show My Homework app. On the left is a navigation menu with options: 'Select student', 'Jack Stanford', 'Emily Stanford', 'Help centre', and 'Logout'. The main area displays two student cards. The first card is for Jack Stanford, with 'Last activity 4 hours ago' and a Recovery PIN of X09888102. The second card is for Emily Stanford, with 'Last activity a day ago' and a Recovery PIN of F08949569. Each card has a menu with four options: '> Calendar', '> Homework', '> Gradebook', and '> Notice board'.

From your Dashboard, you will be able to see any student accounts linked to you. You will have access to their **Calendar**, **Homework**, **Gradebook**, and **Notice board** pages. You will also see when they used the site last and their PIN numbers, which they use to get logged in.

To check a student's homework, click on the **Calendar** tab. This will arrange their work in a week by week format. You can filter the calendar by date, teacher, subject, class, year group, and type of homework task to quickly find what you are looking for. If you aren't logged in and still want to check your child's homework, just check the school calendar.

You can also review homework as a list by clicking **Homework** from the menu under the student whose to-do list you wish to view. On this page, homework is sorted into two tabs: **Recent** and **Upcoming**. In the **Recent** page, tasks with the nearest due dates will be displayed. In the **Upcoming** page, homework which is due further in the future will appear.

If your child has submitted the homework the task will display **Submitted** and any graded homework will display a score. To search for a specific assignment, use the search box and click on the corresponding title to view details of the assignment.

## Using the gradebook

The **Gradebook** is where you can see the grade, submission status, and any teacher comments for your child's homework. Once you log in, simply click the Gradebook icon for a student to get started.

The screenshot shows the Gradebook interface for Emma Bradford. At the top, there is a breadcrumb trail: Home / Emma Bradford / Gradebook. Below this is the title "Gradebook". A filter bar contains three dropdown menus: "Select a class", "Select a teacher", and "Select a status", followed by a "Homework search" input field and two icons (list and grid). Below the filter bar is a heading: "View the submission status and grades for your student's homework tasks" with a help icon. The main content is a table with the following data:

Due on	Homework	Subject	Status	Grade	
08/10/2015	<a href="#">WW2 Research Project</a>	History (Robins)	● Submitted		<a href="#">Results</a>
13/10/2015	<a href="#">Linear REgression</a>	Mathematics (Year2 red H&SC)			<a href="#">Results</a>
13/10/2015	<a href="#">World War 2</a>	Computing (Robins)	● Submitted	A1	<a href="#">Results</a>
14/10/2015	<a href="#">Creative Writing</a>	English Literature (Robins)			<a href="#">Results</a>

There are some filters at the top just in case you want to narrow the classes down by subject, teacher, or submission status.

Assignments are organised by due date. Click the title of a homework for more details or click **Results** for more information about the student's grade.

The submissions status indicates whether or not the assignment was completed and, if completed, whether it was completed on time or not. Quizzes, spelling tests and online submissions will be graded automatically, however, most assignments will rely on a teacher to grade them.
