<b>Big Question:</b> What is Geography?	<b>Big Question:</b> How can maps be used?	<b>Big Question:</b> Where should I be looking?	<b>Big Question:</b> Why do we ask questions in geography?
<b>Learning Intention:</b> To know what physical and human geography is and understand how they can interact.	<b>Learning Intention:</b> To know what an OS map shows and how to use to gain information about a place.	<b>Learning Intention:</b> To understand how scale changes from local to national to global.	<b>Learning Intention:</b> To investigate the amount and types of traffic which passes Shuttleworth College.

		
<b>End of Unit Assessment</b>	<b>Big Question:</b> Who cares about geography?	<b>Big Question:</b> When can processes change a place?
<b>Learning Intention:</b> To apply knowledge of resources and energy to a written exam.	<b>Learning Intention:</b> To know how political decisions can link to changing population need and geographical issues. To understand how this links to our present and future.	<b>Learning Intention:</b> To understand what physical and human processes can happen over time which change a place.
