

Hello, I'm Bertie. I came here from St Augustine's Primary School just a few weeks ago. I chose to come to Shuttleworth College because when I looked round it was really friendly. I especially liked the English and maths departments.

Only a few people came here from my primary school, but it wasn't difficult to settle in. The transition day was brilliant and it's easy to make new friends. There's lots of help here and all the staff help you to feel confident in their lessons.

I really like how positive it is here – I'm earning lots of reward points and our enrichment activities have started this week so I'll get to try lots of new things. In the future, I'm looking forward to being a Student Leader, maybe as an ambassador and eventually as a prefect. I want to be my Form's Rep on the Student Council too.

I don't really know yet what I'd like to do after Year 11. Maybe I'll be a swimmer or a mathematician! But I know I'll be supported at Shuttleworth to achieve my ambitions.
