

EARLY HELP OFFER

Shuttleworth College Early Help Offer

Early help services are part of a continuum of support which enable practitioners to respond to the different levels of need children and families may experience.

It's important that early help services are holistic, considering the wider needs of the family and how to provide appropriate support.

Our early help offer provides children with the support needed to reach their full potential. It can improve the quality of a child's home and family life, enable them to perform better at school and support their mental health.

At Shuttleworth we are able to provide both internal support and external support, utilising the experience and expertise from other agencies and professionals.
