Contingency Day

Wednesday 23 June

A contingency day is a designated reserve date set by the exam boards to ensure that any examinations disrupted or unable to take place as scheduled can still be completed. This may be used in the event of a national or significant local disruption, such as severe weather or a major incident, affecting exams earlier in the timetable. In such circumstances, examinations may be rescheduled to the contingency day. Students must remain available up to and including this date should it be required. Therefore, holidays and other commitments should not be arranged until after the contingency day.
