

Good evening everyone. My name is Khadijat and I'm in Year 7. I'm excited to speak to you tonight about what our school community means to me. As a student here at Shuttleworth, I'd like to share a bit about that from a student's point of view.

When I first joined the school, I wasn't sure what to expect. But right from the start I felt welcomed not just by the teachers but by the other students. Shuttleworth College isn't just a place we come to learn, it's a place where we are encouraged to grow not just as students but as people.

Being part of this community also means having access to so many opportunities whether its sport teams, arts or clubs. In the future, I want to work in law and eventually become a judge. At Shuttleworth College we have our motto: Think Big, Chase Dreams, Succeed Together. That's how our community succeeds – together. Thank you.
