

**SHUTTLEWORTH**

COLLEGE

NEWSLETTER

HEADTEACHER MESSAGE

Dear Families,

I hope this edition of our newsletter finds you well.

As you will see, there has been so much going on this half-term! We started in the summer with our year 7 summer school; the year 7 children have settled in incredibly well and feel at home here at Shuttleworth. The summer also saw an amazing set of exam results from our year 11 leavers, with some exceptional individual performances; these students are now settled in their next steps and it has been lovely to hear about the range of courses they have gone on to study.

Throughout the half-term there have been a variety of safety messages given out in extra assemblies, the details of which you will see throughout this newsletter.

We have also been revisiting key safeguarding messages, and have signposted information from 'Kooth' towards the end of the newsletter who have a vast array of resources to support with wellbeing and mental health. We will also be holding a safeguarding information evening in the first week back after the break.

Last night we held our Open Evening for year 6 children and their families; the building was packed! The atmosphere was lovely and the students who helped out on the night were an absolute credit to us, themselves and their families.

Finally, don't forget to check out our Faculty Focus, you will see some new faces in our Creative Technologies department, as well as some familiar ones.

Take care, and I look forward to seeing all the children back on Monday 30th October.

R. England

NEWS & EVENTS

ALFIE WALKS A MILE A DAY

Alfie has completed his challenge to walk a mile a day and raised over £1,200 for Pendleside Hospice.

We are incredibly proud of Alfie!

SUMMER SCHOOL 2023

This year's summer school saw over 180 students attend in the first week of the summer holidays. Shuttleworth teachers planned and delivered a range of engaging sessions to ensure the newest members of the Shuttleworth family started to think big, chase dreams and succeed together.

From beautiful creations in art, to science experiments, or challenging discussions in humanities and exceptional writing in English, students really engaged and rose to the challenges we set. We also had an exciting array of guests including oracy specialists from Talk the Talk, a London theatre company, a skipping workshop, an author and a 30-foot inflatable planetarium from Lancaster University.

All week staff were ably supported by a number of newly appointed prefects and ambassadors who proved invaluable throughout the course of the week.

SAFETY ASSEMBLIES

In September all year groups have had an assembly and form time discussions focused on safety. This has included ensuring all students understand our emergency procedures. All students are practising the fire drill procedure and we had a very successful whole school lockdown practice on Wednesday this week. We have also focused on our safeguarding structures in school to refresh this information for years 8-11 and to introduce Y7 to the safeguarding team. We also have Whisper, which is a way to report concerns to us anonymously.

As a school we work with Kooth, which is a digital mental health service. A number of our Y11 prefects are training as Kooth Champions and spoke to our Y7s and 8s in assembly - thank you Jubril Lawal, Emily-Jae Smith and Poppy Mooney! Finally, we revisited online safety, something which we have worked on in recent years, and which we will continue to discuss and support students with.

STREETWISE BY THEATREPIE

TheatrePiE came into school to talk to our year 7 students about the importance of road safety and being streetwise. They acted out sketches and interacted with our students to relay the very important messages.

YEAR 11 - LOWRY TRIP

11B Drama went to see 'The Ocean at The End of the Lane' at The Lowry, Manchester on Friday 6th October.

After a rainy drive in the minibus, we arrived at The Lowry, where some students spent their pocket money in the Cadbury's chocolate shop! Once we had found our seats and opened up our snacks, the show began, and I think it is safe to say it blew us all away. There were gasps, tears and huge amounts of applause, and we thoroughly enjoyed every second.

I must commend the students' behaviour as they were absolutely fantastic and were even complimented from the row behind on how great they were during the show and how well they represented the school. It was a wonderful afternoon and well done for doing us proud, 11B!

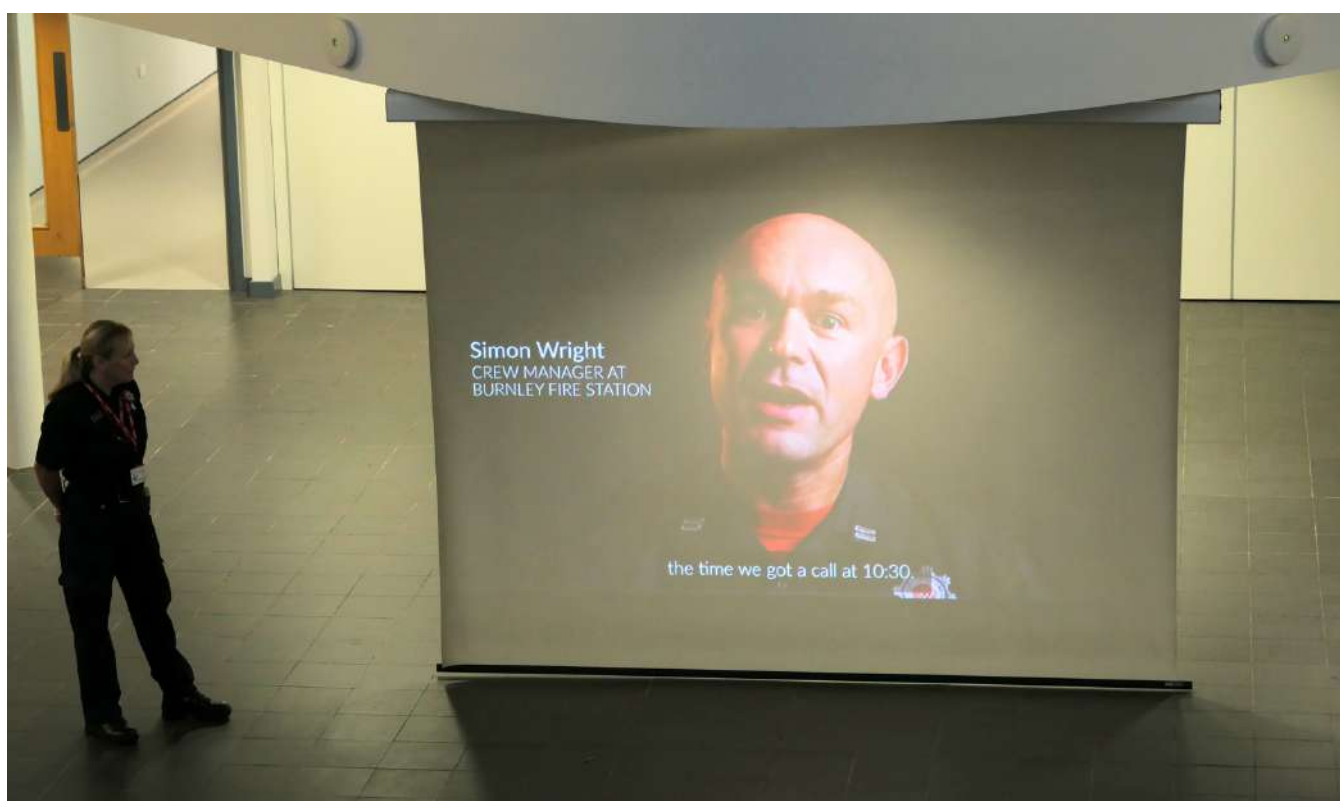

BRIGHT SPARX

On Friday 20th October two members of the fire service came to school to deliver fire safety assemblies ahead of Bonfire night.

They spoke to all students about the benefits of attending organised bonfires, making sure they stay safe with fireworks and also about the dangers of hoax calls.

They shared a very powerful video depicting issues the emergency services have experienced in Burnley and Padiham in recent years.

They also gifted us some free tickets for the Towneley Park bonfire which will be awarded to students who have been exemplary in the first half term at school.

OPEN EVENING 2023

This year's open evening saw a fantastic turnout - over 400 families came to school on Thursday 19th October to see how we Think big, chase dreams and succeed together.

Our atrium was full very quickly and there was standing room only when Mrs England spoke to families about our school, staff and transition. Head boy and girl, Jubril Lawal and Emily-Jae Smith, talked about their Shuttleworth journeys and future aspirations, leadership opportunities and how prefects support transition.

We were thrilled to have Y7 speakers talking about transition days, summer school, settling in and enrichment opportunities. Well done Jeylan Chorley and Talia Williams!

Families could navigate their way around school at their leisure, or were ably led by student ambassadors who gave guided tours. We had over 80 Shuttleworth supporting in faculties and around school, all of them were exemplary role models and represented the school with pride.

All faculty areas welcomed families offering activities and sharing information about learning at Shuttleworth. The English and creative communications faculty set up a fairytale mystery to solve, there were experiments in science and challenges to count the cost of sweets in maths & chances to try the equipment in ICT.

PE offered opportunities for families to go in the gym or play table tennis and lots of Shuttleworth students braved the rain to showcase football on the AstroTurf.

MFL had activities and served food (if you asked in the target language!) and humanities took families on a journey through times and places.

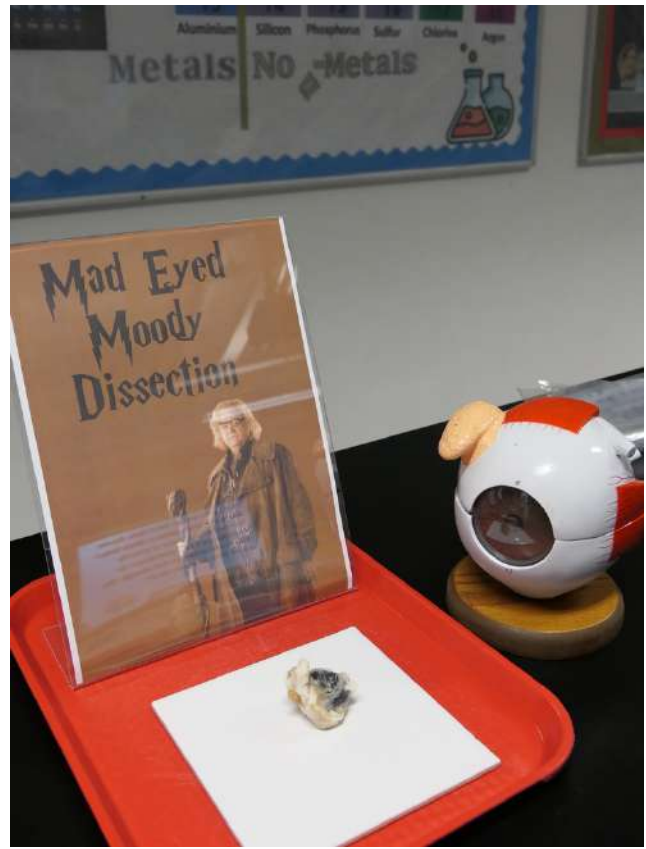

Music was provided throughout the evening by a range of Shuttleworth singers and musicians and drama games took place in the drama studio.

In the library we had information and key staff for SEND, inclusion, literacy and careers.

Thank you to all families who attended, and again to the Shuttleworth students who absolutely shone. More photos can be viewed on our website.

CAREERS

On the 27th September we welcomed a range of post-16 providers to school for our annual year 11 Careers Fair. Our students represented Shuttleworth brilliantly, being positive and enthusiastic about their next steps. Support for year 11s post-16 choices will continue throughout the year, with class sessions, application sessions and CV workshops.

Year 11 students are also advised to attend sixth form, college and training provider open events, so that they can see the excellent facilities available in our area.

Mrs Ackroyd, Careers Leader, said, "I am so proud of the way year 11 conducted themselves at our Careers Fair. They have high aspirations and I can't wait to see how they progress in the next few years."

Boost your confidence when working with numbers

with Lancashire Adult Learning and Multiply.

Multiply provides **FREE** and flexible in-person and online maths courses that fit around your life.

Our courses can help to:

- + Improve your job prospects
- = Get help to understand and manage household finances
- × Understand bank accounts, loans and credit ratings
- ÷ Support your children with their homework
- + Make sense of facts in the media

Delivered across Lancashire

People with a Level 2 Maths qualification often earn more than those without.

STUDENT LEADERSHIP

We are excited to share the latest updates from our dynamic student leadership team as we embark on an exciting journey this term!

PREFECTS IN YEAR 7 AND YEAR 8 FORM TIME

One of our key initiatives this term is deploying our Prefects into Year 7 and Year 8 form times. This move is designed to foster a sense of community and mentorship within the school. Our younger students will benefit from the guidance and support of our experienced Prefects, helping them integrate into the school environment more smoothly.

Jubril Lawal , Emily-Jae Smith and Poppy Mooney also delivered an excellent presentation in the Year 7 and Year 8 assemblies about safeguarding and Kooth. They were impeccable and are setting a brilliant example to the younger students, whilst also providing support through being Kooth Champions.

ECO-FRIENDLY INITIATIVES: MAKING OUR SCHOOL AN ECO SCHOOL

This half-term, our student leadership team is focused on a compelling project – recycling and sustainability. We are dedicated to making our school an eco-friendly place where environmental responsibility is a top priority. Through various initiatives and educational programmes, we aim to reduce our carbon footprint and promote eco-consciousness among students and staff.

By actively participating in recycling projects, we hope to instil a sense of environmental stewardship in our school community and contribute to a greener future.

PROMOTING MENTAL HEALTH: PREFECTS TRAINED ON KOOTH

In addition to our environmental efforts, we are equally committed to promoting mental health within our school. Our Prefects have undergone training on Kooth, an online platform that provides valuable resources and support for mental well-being. This training equips our Prefects with the tools to recognize signs of emotional distress among their peers and offer guidance on accessing mental health resources.

By integrating Kooth into our support network, we aim to create a safe and inclusive environment where students can openly discuss their mental health concerns and seek the help they need.

We are thrilled about the positive impact these initiatives will have on our school community. Stay tuned for more updates on our progress and upcoming events.

FACULTY FOCUS

TECHNOLOGIES CREATIVES

Yorkshire Sculpture Park Visit

During Aspire Week in the last week of the summer term, we were fortunate to be able to take all of our Year 10 GCSE Art & Design and Three Dimensional Design pupils to visit Yorkshire Sculpture Park.

The 70 pupils were blessed with dry weather as we explored the park and viewed a huge range of sculptural artworks amongst the beautiful countryside setting.

With so many different forms and contexts of artwork on show, many created by world renowned artists, we hope that the experience has inspired our creative students to look beyond the norm and push the boundaries of what art can really reflect.

We look forward to visiting the park with our current year 10 students later this academic year.

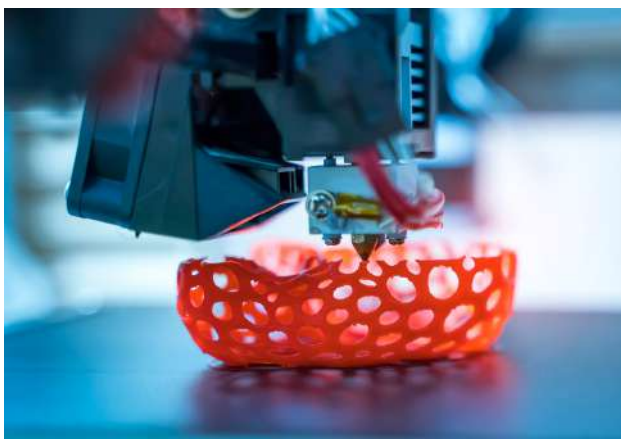

Create Education & BAE Systems Partnership

The Creative Technologies faculty are exceedingly fortunate to be involved in a five year partnership with Create Education and BAE Systems. The programme specifically focuses on inspiring our young people to embrace and develop skills associated with the fast growing area of additive manufacturing technology- 3D printing. Our involvement has enabled us to increase our own skills within the area, but also incorporate 3D scanning and 3D printing within our curriculum.

Over the next two terms, 60 students in both Year 8 and 9 will have the opportunity to take part in a 3D design and printing workshop lead by the experts from Create Education.

The Challenge Task sessions will begin with Ms Walsh and Mr Lund on Monday 2nd October from 3.15-4.15pm. If you are interested in taking part, please see Ms Walsh and sign up as places are limited!

We will also be taking part in a Lancashire-wide challenge as part of our after-school enrichment programme. Students that are involved will work in teams to design and make a 3D printed prototype that will aid in improving the environment in and around a waterway or improve the habitat for one or more species of wildlife. The most successful outcomes from our pupils will then be judged against those entered by other schools and prizes awarded by BAE Systems.

BAE SYSTEMS

Inspiring
Lancashire

The Challenge Project

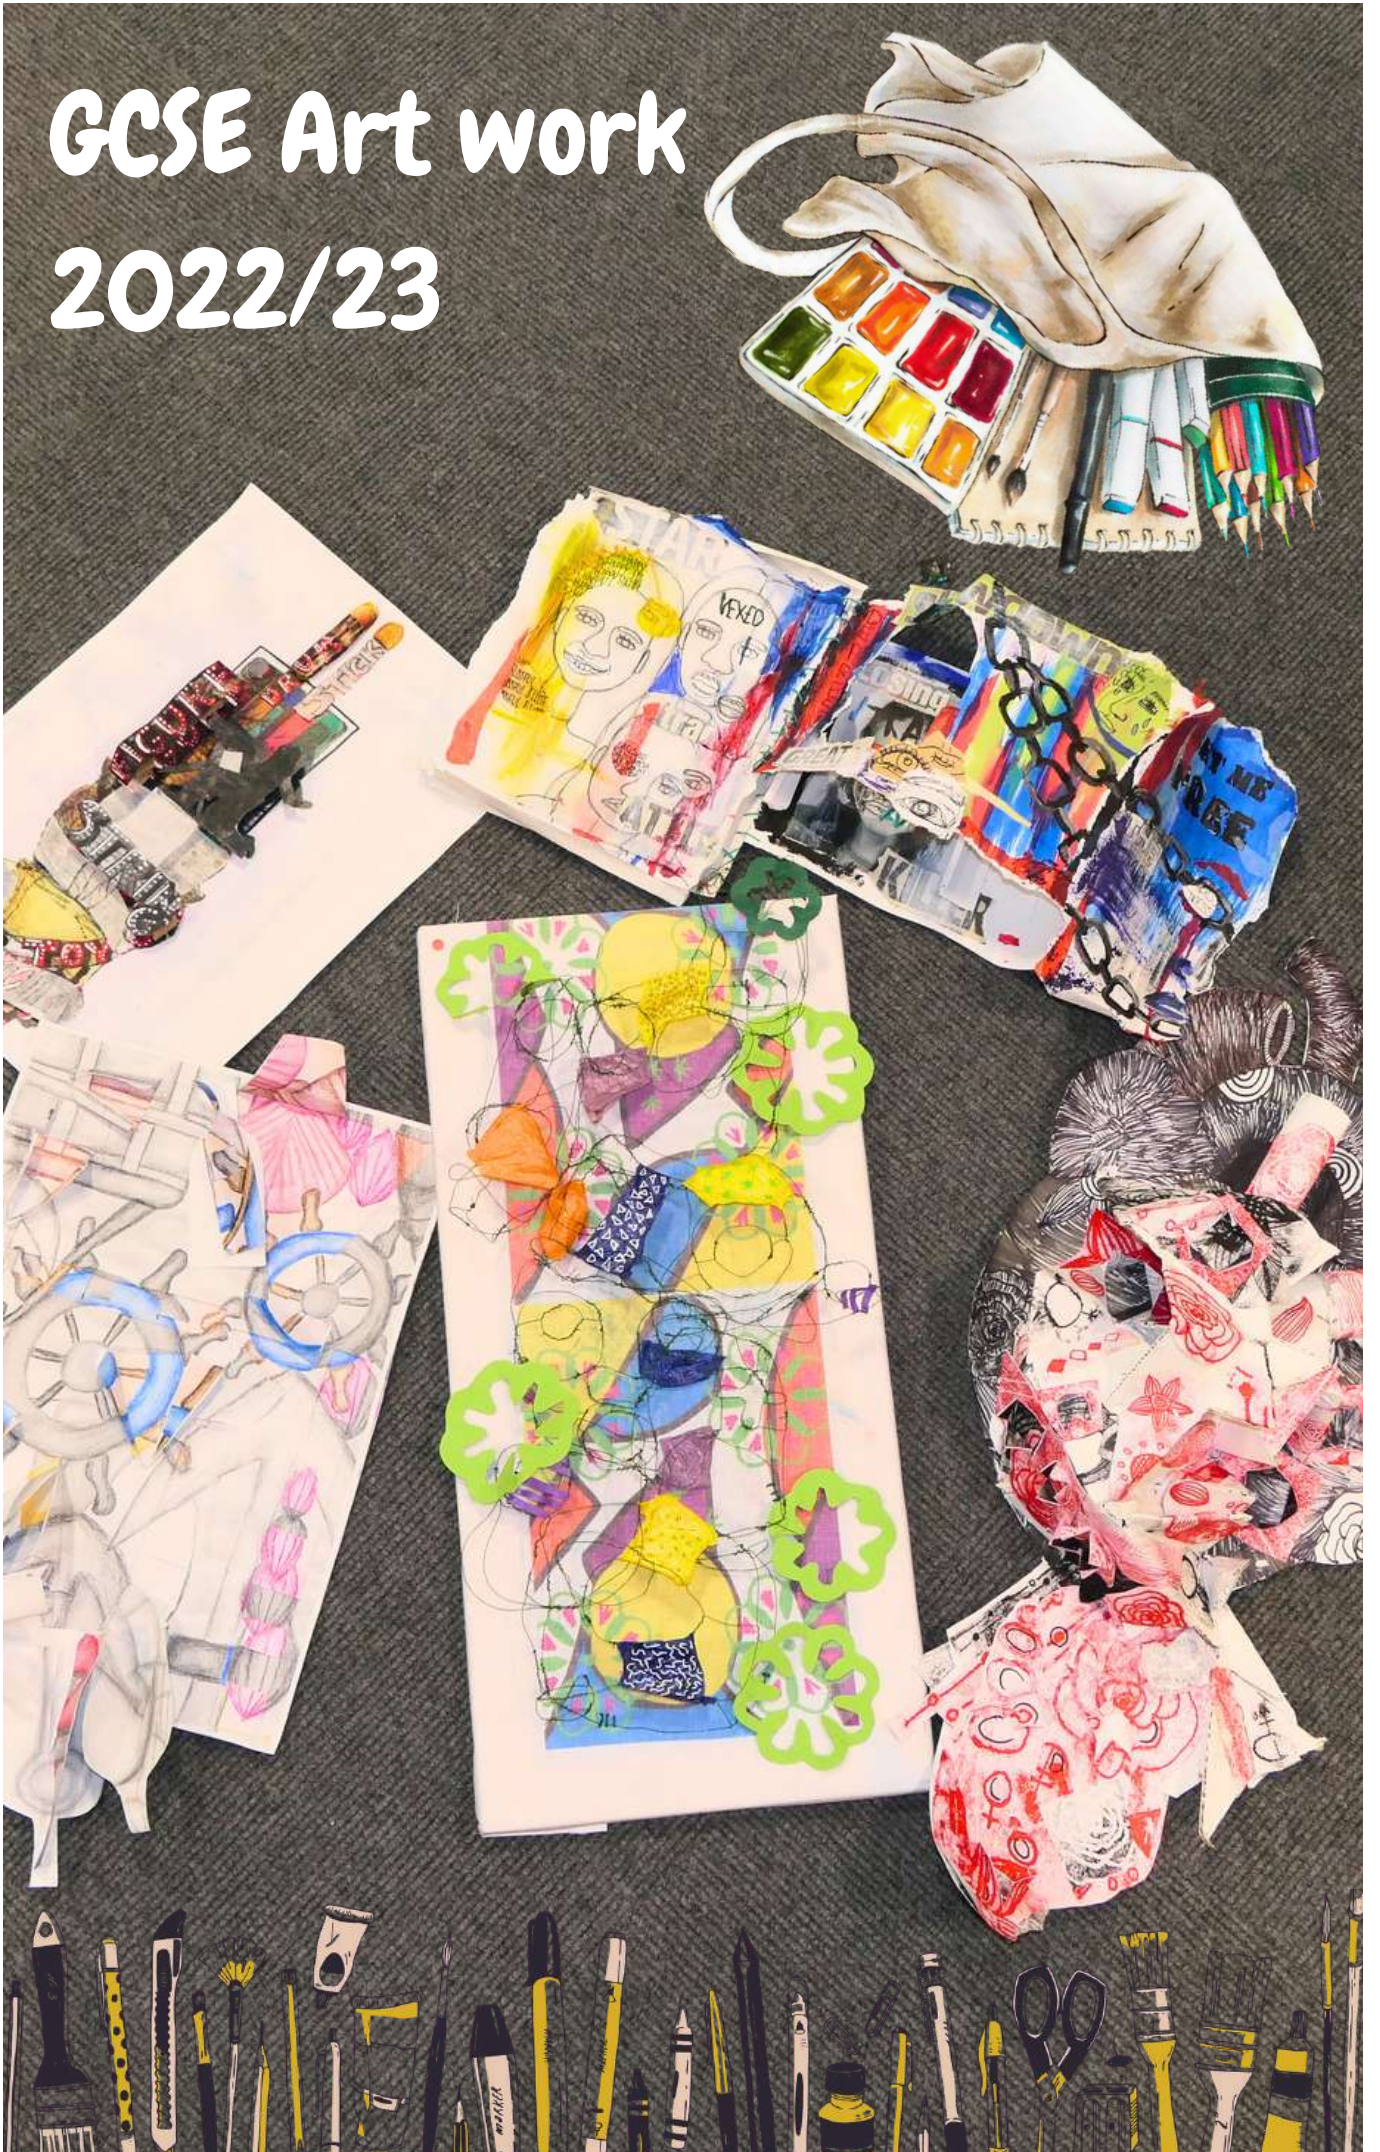

GCSE THREE DIMENSIONAL DESIGN

Last year saw our first cohort of GCSE Three-Dimensional Design pupils submit design portfolios and complete their externally set examination task. We are really proud of what the cohort achieved and thoroughly enjoyed seeing pupils flourish through the exploration of ceramics, sculpture, architectural design and even stage design. Well done all!

GCSE Art work 2022/23

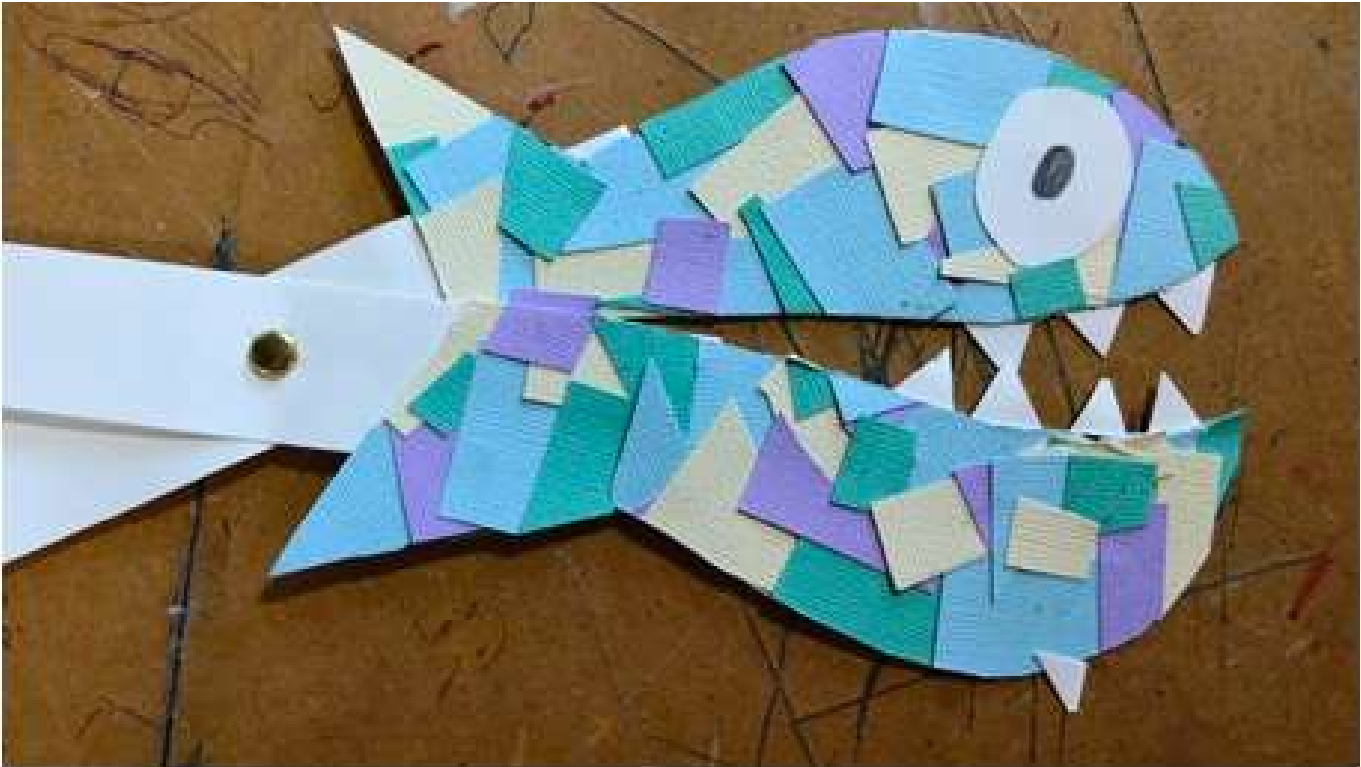

SUMMER SCHOOL ART

ART Summer school 2023. Wow! What a creative bunch. The year 7s worked collaboratively to set themselves a goal when starting year 7, on the back of their butterflies. This may have been making new friends, gaining confidence or learning something new. The students were very hands-on, and the creativity was flying through the air. Using a wide range of media the students independently decorated their butterflies to bring them to life, full of colour, texture and pattern. Students also created snapping fish when learning about linkages!

They created some outstanding pieces and we can't wait to see what else they'll produce through their time at Shuttleworth.

SAFEGUARDING

Calling all young people in Years 11 & 12

The NCS (National Citizens Service) programme is a place that young people can grow their strengths and become world and work-ready. Through a range of different experiences - online, in their community, and away from home - young people can build their confidence, resilience, and wellbeing, gather work skills, and become engaged citizens who feel motivated to make a positive difference in society.

Create social cohesion

Cultivating stronger, more integrated communities by fostering understanding between young people and their neighbours from different backgrounds.

Create social mobility

Building essential skills for work and life, making sure young people can get ahead and are prepared for wherever the future hold.

Create social engagement

Engaging young people in social action in their community as well as the democratic process, creating more understanding of their responsibilities as a citizen and their potential to affect change.

OPERATION ENCOMPASS

OPERATION
ENCOMPASS

Operation Encompass is a national scheme that operates jointly between schools and all police forces.

“ Children who live in homes where there is domestic abuse, or who experience domestic abuse in their own teenage relationships, can be negatively impacted by this experience. ”

“ Children who experience domestic abuse are recognised as victims of domestic abuse in their own right! ”

“ We have ensured that a member of our staff, (Designated Safeguarding Lead) known as a Key Adult, has been trained about Operation Encompass procedures. This allows us to use the information that has been confidentially shared with us by the police, to understand how a child may be impacted by domestic abuse and to then offer support to the child/ren in our care. ”

“ Operation Encompass means that our school will be told, prior to the start of the next school day, when police have attended an incident of domestic abuse where there is a child or young person who attends our school who is related to any of those involved in the incident. ”

“ This information means that we can understand a child's behaviour and support that child in whatever way they may need or want. ”

“ We are keen to offer the very best support possible to all our pupils and we believe that being part of Operation Encompass helps us to do this. ”

Domestic Abuse Act 2021

SAFEGUARDING GOVERNOR

We recognise our moral and statutory responsibility to safeguard and promote the welfare of students. We endeavour to provide a safe and welcoming environment where children are respected and valued. We are alert to the signs of abuse and neglect and follow our procedures to ensure that children receive effective support, protection and justice. Our aim is to provide a safe and secure environment for students, staff and visitors. If you have any concerns about the safety of a child please ensure you report it to a member of the safeguarding team:-

safeguarding@shuttleworth.lancs.sch.uk

If your concern is of immediate harm or outside of school hours, please report to the Police or Children Social Care 0300 123 6720
0300 123 6722 (evenings/weekends)

Safeguarding is our top priority. Please help us in ensuring our school is a safe place!
